

# ALPINOLS The Booster CBD, Aloe & Hyaluron Gel Serum

The oil-free serum with immediate revitalising and firming effect provides a naturally fresh appearance. The uniquely formulated serum from Switzerland includes hyaluronic acid and vitamin C which gives tired and stressed skin a boost. Due to its oil free consistency and fast absorption it is ideal for any skin type and a great addition to the daily skincare routine.

## Directions of use

Use in AM and PM after cleansing before your moisturiser. The Booster works great in combination with ALPINOLS The Essential.

## What is hyaluronic acid?

Hyaluronic acid is a polysaccharide which can hold up to 1,000 times its weight in water. With regards to skin health, hyaluronic acid is commonly seen in serums and moisturisers. As we age the levels of this acid decrease in our body which may result in drier skin more prone to wrinkles. In our ALPINOLS The Booster the hyaluronic acid works on the skin's surface-level to attract significant amounts of water which keeps the cells hydrated, smooth and plump.

## Our formula

It was created to provide an immediate and lasting effect to meet skincare needs in today's stressful environment. We combined two powerful natural active ingredients, aloe vera and our full spectrum hemp extract, into a powerhouse synergy rich in vitamins and antioxidants for high-performance products.
