# Swiss Organic Partners At a Glance

We are one of the leading pharmaceutical and consumer cannabis product companies in Europe. Based in Switzerland, we develop, manufacture and distribute high-quality cannabinoid products for the pharmaceutical and well-being markets. We strive to improve lives by harnessing nature's secret ingredients and making the highest quality, Swiss-grown, organic cannabinoid products available to everyone. We see ourselves as a partner for all companies with the highest quality and service requirements.

Swiss Made  
to the highest  
quality standards

The largest Bio Suisse-  
and GACP-certified farm  
with over 37 acres

Everything from a single  
source, from the field  
to the shelf

100% natural ingredients,  
free from pesticides &  
unwanted foreign substances

15 years of medical  
cannabis experience & working  
in genetics & science

Handpicked,  
gentle & traditional  
harvesting

High production  
capacities & short  
delivery times

Modern, gentle  
and sustainable  
CO<sub>2</sub> extraction

THC-free\* oils  
with all the important  
ingredients

\* THC below detection limit 0.05%

## The Love of Nature Is What Drives Us

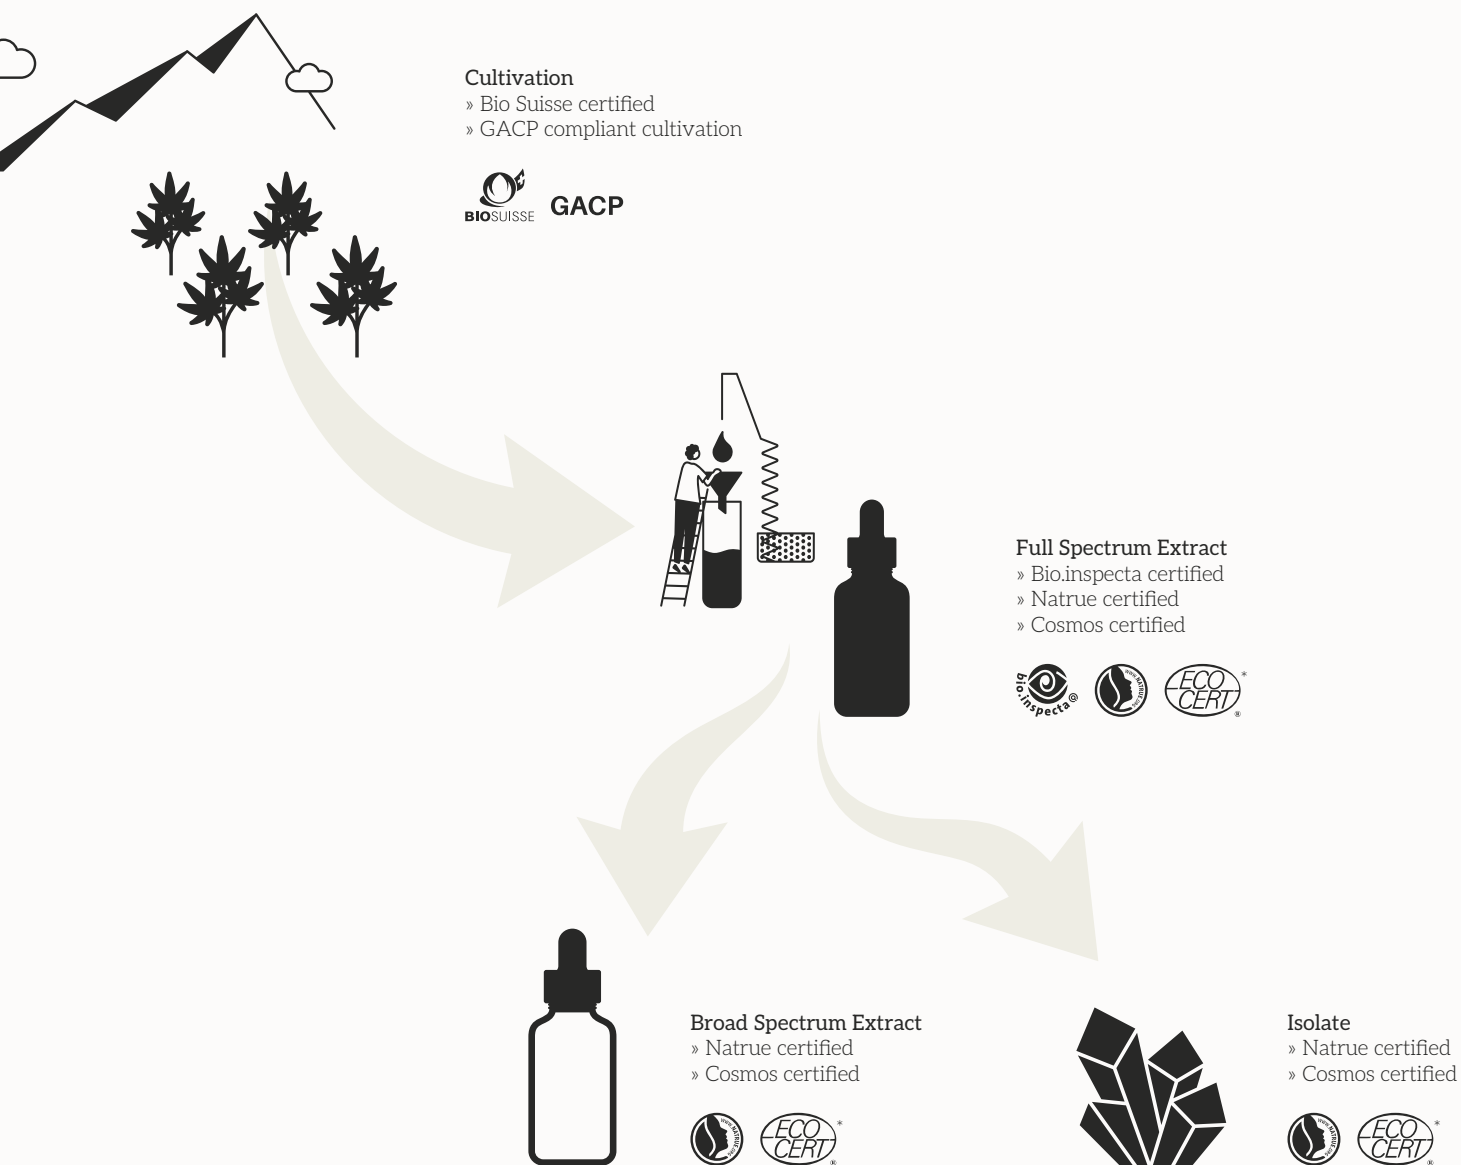

Having grown up in the alpine landscapes, we strive to improve lives with nature's secret ingredients. Our farming and production of this power plant is unique. With our careful farming and production of cannabis, we ensure the highest quality of our organic CBD products. Having over 15 years of cannabis cultivation experience and over 25 years in organic farming, we've learned that plants are very similar to people. The more love and care they get, the better they grow. That's why we harvest every leaf by hand, don't use any foreign substances, and analyze our products in-house and with an independent laboratory—to guarantee consistency, transparency and the highest quality.

BRANCHENVERBAND  
CANNABISWIRTSCHAFT E.V.

# The Best Quality Our Guarantee

Bio Suisse organises and manages the development of the Bud and organic farming in Switzerland. The Bud, the brand of Swiss organic producers and their organic products, guarantees compliance with the strict Bio Suisse standards and thus a very high organic production standard across the entire farm. The Bud has become the organic brand in Switzerland with the greatest credibility and the highest level of recognition.

- » Use of only natural means
- » Production of gently processed products
- » Assuming social responsibility for employees
- » Caring for the soil so that it remains fertile and alive
- » Responsibility towards nature

bio.inspecta is the leading Swiss provider of inspection and certification services for products that are produced in an ecologically sustainable, animal-friendly and socially responsible manner.

- » At least 95% of the ingredients must be of organic quality
- » Products that are certified according to the basic requirements of bio.inspecta may be advertised as organic

## GACP

Our organic farmers are audited for compliance with the European Medicines Agency (EMA) Good Agricultural and Collection Practice (GACP) guideline for the cultivation of cannabis. GACP compliance ensures the highest and consistent quality of herbal products, while taking into account environmentally relevant aspects of agricultural production.

NATRUE is a European certification organisation. The organisation provides a set of standards for the certification of natural and organic cosmetics, which include requirements for the production, processing, manufacturing, labelling and marketing of natural and organic cosmetic products. The strict NATRUE criteria guarantee that manufacturers who have their products certified with the NATRUE label formulate according to one of the highest standards for natural and organic cosmetics on an international level.

- » No synthetic preservatives, fragrances or dyes and the use of environmentally friendly production methods.
- » Reliable, verifiable and international standard
- » Ensuring clarity of natural and organic ingredients and product transparency

Ecocert is the world's leading specialist in certification of sustainable practices. Ecocert is a French certification body that sets standards for natural and organic cosmetics. The standards require that all ingredients used in the manufacture of a cosmetic product are of natural origin and come from renewable resources. Ecocert also sets requirements for the manufacturing process, packaging and labelling of cosmetic products.

- » COSMOS CERTIFIED signature is for physically and chemically processed ingredients with biological content that comply with the COSMOS standard
- » COSMOS APPROVED signature is for non-biological raw materials for use in cosmetic products that are certified and approved according to the COSMOS standard

## Full Spectrum Oils With Different Carrier Oils

With this extract, we draw on the full power of the plant. This CBD oil covers all the important ingredients of the hemp plant - including the legal amount of THC. We offer several options and variations with full-spectrum hemp extracts:

CBD %	VOLUME	CBD CONTENT	SWISS MADE	CULTIVATION	LABEL
5%	10 ml	500 mg	+	Bio Suisse	
	30 ml	1500 mg	+	Bio Suisse	
10%	10 ml	1000 mg	+	Bio Suisse	
	30 ml	3000 mg	+	Bio Suisse	
15%	10 ml	1500 mg	+	Bio Suisse	
	30 ml	4500 mg	+	Bio Suisse	
20%	10 ml	2000 mg	+	Bio Suisse	
	30 ml	6000 mg	+	Bio Suisse	
25%	10 ml	2500 mg	+	Bio Suisse	
	30 ml	7500 mg	+	Bio Suisse	
40%	10 ml	4000 mg	+	Bio Suisse	
	30 ml	12000 mg	+	Bio Suisse	

### Options

For our CBD oils

- » Choose your desired carrier oil: organic sunflower seed oil, organic MCT coconut oil, organic hemp seed oil, and many more on request.
- » Choose the content and bottle size: 10ml, 30ml, other sizes on request.
- » Choose your desired CBD concentration: 5% to 40%.

## THC Free\* Oils With Broad Spectrum Extract

Broad Spectrum extract is a THC-free\* product that contains all other cannabinoids and all terpenes. One could therefore also speak of a Full Spectrum extract without THC. Here, too, we offer different options and variants:

CBD %	VOLUME	CBD CONTENT	SWISS MADE	ORGANIC	LABEL
5%	10 ml	500 mg	+	Bio Suisse	
	30 ml	1500 mg	+	Bio Suisse	
10%	10 ml	1000 mg	+	Bio Suisse	
	30 ml	3000 mg	+	Bio Suisse	
15%	10 ml	1500 mg	+	Bio Suisse	
	30 ml	4500 mg	+	Bio Suisse	
20%	10 ml	2000 mg	+	Bio Suisse	
	30 ml	6000 mg	+	Bio Suisse	
25%	10 ml	2500 mg	+	Bio Suisse	
	30 ml	7500 mg	+	Bio Suisse	

\* THC below detection limit 0.05%

## CBD Oils With Additives For More Effect

CBD oil combined with other natural plant extracts. Not only the hemp extract, but also the camomile, lemon balm and other selceted ingredients, are full of plant power. With our new CBD products, you can't go wrong. Out of love and passion for nature, we produce these three CBD oils with additional plant extracts, that are made in Switzerland and consist of natural ingredients.

PRODUCT	VOLUME	CBD CONTENT	SWISS MADE	CULTIVATION	LABEL
<b>For the night</b> Organic Full Spectrum CBD with chamomile extract	10 ml	1500 mg	+	Bio Suisse	 
<b>For the day</b> Organic Full Spectrum CBD with lemon balm	10 ml	1000 mg	+	Bio Suisse	
<b>For the defences</b> Organic Full Spectrum CBD with black cumin oil, calendula and evening primrose extract	10 ml	1000 mg	+	Bio Suisse	 

We offer other CBD oils as white label, which are enriched with additional plant extracts.

## CBD Face Mask With Aloe Vera & Clay

### Cleanses, revitalises and softens your skin for a radiant complexion

Our Swiss CBD full-spectrum hemp extract restores the skin's natural balance. The exclusive blend of natural clays (Rhassoul and Kaolin) absorb excess sebum and impurities. The minerals it contains provide your skin with intensive nutrients and, thanks to our plant-based ingredients aloe vera and shea butter, the skin is moisturised at the same time. For a radiant complexion.

PRODUCT	VOLUME	CBD CONTENT
CBD Face Mask	50 ml	500 mg

## CBD Face Cream With Shea Butter

### Protects your skin from age-related and environmental damage

Our Swiss CBD full-spectrum hemp extract activates cell regeneration and thus strengthens the skin barrier. Shea butter and wild rose oil support the skin's own lipids, which nourish our skin and protect it against external influences. Manuka honey helps to improve the elasticity of the skin and makes it more resilient. The essential oils ylang ylang and grapefruit give the face cream a special natural fragrance. For a smooth and balanced complexion - Dermatologically tested.

PRODUCT	VOLUME	CBD CONTENT
CBD Face Cream	50 ml	500 mg

# CBD Repair Balsam

## With Vitamin E & Marigold

**Gently soothes the skin, reduces redness and ensures a balanced complexion**

Our Swiss CBD full-spectrum hemp extract activates cell regeneration and thus strengthens the skin barrier. Thanks to the combined powers of the ingredients, the balm has a targeted effect on irritated and stressed areas of skin. Shea butter moisturises and nourishes the skin, while marigold oil and vitamin E have a regenerating and repairing effect on damaged skin. Cedar, lavender and orange essential oils have a harmonising and balancing effect. The skin is strengthened and repaired.

PRODUCT	VOLUME	CBD CONTENT
CBD Repair Balsam	50 ml	500 mg

# CBD Sports Balm

## With Magnesium & Arnica

**Massaging into the skin helps to alleviate muscle and joint pain**

Our Swiss CBD full-spectrum hemp extract restores the skin's natural balance. In combination with a massage, arnica stimulates blood circulation and thus shortens the recovery time. Camphor and peppermint can provide relief from any pain with their cooling effect, while lavender and ylang ylang essential oils provide a soothing and relaxing body sensation. Our balm cares for the skin and is beneficial after physical activity. Intensive massage loosens and reactivates the muscles.

PRODUCT	VOLUME	CBD CONTENT
CBD Sports Balm	50 ml	500 mg

# CBD Face Serum

## With Retinol & Nourishing Oils

**Soothes, moisturises and supports the regeneration of the skin in a natural way**

Our Swiss CBD full-spectrum hemp extract gently and naturally contributes to the well-being and relaxation of your skin. The lipid composition of jojoba oil corresponds to that of the skin's surface and therefore blends well with the skin's natural lipid film without clogging the pores. It thus protects the skin from water loss without having a greasy effect. Retinol works in the uppermost layers of the skin. It makes the skin smoother and more even as it reduces pigmentation spots, smoothes fine lines and can minimise large pores. The high-quality oil complex of rose hip, apricot kernel, wild rose and baobab helps to soothe, moisturise and regenerate your skin. The essential oils mugwort, sweet orange and lavender provide a soothing fragrance experience during application. For a radiant and glowing complexion – Dermatologically tested.

PRODUCT	VOLUME	CBD CONTENT
CBD Face Serum	30 ml	300 mg

# CBD Body Oil

## With High-Quality Jojoba Oil

**Soothing moisturising care for soft skin and silky hair**

Our Swiss full-spectrum hemp extract restores the skin's natural balance. Thanks to the aromatic properties of the naturally occurring terpenes, applying the body oil becomes a special fragrance experience and promotes your sense of well-being. Jojoba oil is quickly absorbed, is non-greasy and nourishes the skin in a unique way. Jojoba oil is one of the highest quality natural oils. Due to the numerous vitamins and minerals it contains, it is rightly known as "liquid gold". This all-natural massage oil makes your skin silky soft and elastic. When used as a hair oil, it is absorbed into the hair structure, protecting it and preventing split ends.

PRODUCT	VOLUME	CBD CONTENT
CBD Body Oil	100 ml	230 mg
CBD Body Oil	250 ml	575 mg

# Cleansing CBD Face Gel With Papaya & Sweet Clover

## Cleanses, soothes and regenerates your skin

We developed a unique formula of natural ingredients for the CBD cleansing gel. Papaya has a nourishing, regenerating and antioxidant effect. It contains several enzymes, including papain, which softens the skin and can dissolve dead skin cells. The vitamins, minerals and amino acids contained in papaya nourish and optimally moisturise the skin. Sweet clover is characterised by its soothing and antioxidant properties, which can reduce redness and signs of ageing. Grapefruit not only contributes to the fresh flavour of our cleansing gel, but also promotes blood circulation and skin regeneration. The mild plant-based surfactants are enriched with CBD from organic full-spectrum hemp extract to soothe the skin and protect it from drying out. Your skin is left feeling wonderfully soft and clean after cleansing. For an improved, firmer and clearer complexion.

## CBD & Aloe Face Cream Day & Night Cell Protection

A unique combination of our Swiss hemp extract & aloe vera nourishes the skin daily in a natural way and works against irritating environmental influences such as UV light, fine dust or stress. We combine the active ingredients of both plants with moisturising sodium hyaluronate – to build collagen – and vitamin E for radiant skin. Regenerates overnight, protects and rebuilds during the day.

PRODUCT	VOLUME	CBD CONTENT
CBD & Aloe Face Cream	50 ml	87 mg

## CBD, Aloe & Hyaluronic Serum Revitalizing & Invigorating

The serum is absorbed particularly quickly into the skin. Thanks to the CBD Bio Full Spectrum extract, the serum has a revitalising effect and protects the skin from harmful environmental influences at the same time. Immediately after application, the aloe vera and hyaluron contained in the serum ensure a radiant complexion and a refreshing feeling on the skin.

PRODUCT	VOLUME	CBD CONTENT
CBD, Aloe & Hyaluron Serum	30 ml	52.5 mg

## CBD & Aloe Sport Gel

### Regenerating & Cooling

The muscle gel benefits from the unique synergy of aloe vera and CBD, which combines pain-relieving and anti-inflammatory properties. With its cooling effect, it provides immediate relief and promotes cartilage development and muscle regeneration. The oil-free gel is quickly absorbed into the skin and strengthens connective tissue and ligaments.

PRODUCT	VOLUME	CBD CONTENT
CBD & Aloe Sport Gel	100 ml	175 mg

## CBD Facial Soap

### With CBD & Almond Oil

For our solid facial soap, we were inspired by the power of nature. This soap is made from a unique blend of natural ingredients and is perfect for anyone who wants to cleanse their face in a gentle yet effective way. Shea butter moisturises and nourishes the skin, leaving it feeling soft and supple. Almond oil is rich in vitamins and essential fatty acids that protect the skin from environmental damage. Almond oil also helps to regulate the skin's natural oil production and reduce redness and irritation. Hemp oil supports the renewal and promotion of healthy skin cells thanks to its high vitamin E content. The combination of other high-quality oils and hemp tea moisturises, cleanses and soothes your skin. The CBD contained in the hemp extract reduces skin redness and irritation thanks to its antioxidant properties. For a healthy and radiant complexion.

PRODUCT	VOLUME	CBD CONTENT
CBD Facial Soap	100 g	0,1 %

# Raw Materials

## High-Quality Organic Hemp Extracts

We offer a wide range of premium Swiss Made organic hemp extracts and cannabinoids for various industries. Thanks to our many years of experience in the supply and development of various high-quality cannabinoid products, we have customized solutions for different industries, such as the cosmetics or food industry.

### Full Spectrum oils

We offer different types of Full Spectrum extracts with the Full Spectrum of all naturally occurring cannabinoids and terpenes.

### Broad Spectrum oils

Thanks to THC extraction using flash chromatography, we offer high-quality Broad Spectrum extracts and distillates.

### Isolates

We offer a wide variety of cannabinoid isolates (CBD, CBG, CBN, etc.) of the highest purity, free of impurities, and in different variations.

### Certifications

We offer various certifications and labels, such as Natrue certification or Bio.Inspecta certified products and raw materials.

## CBD Isolates

DESCRIPTION	%	SWISS MADE	CULTIVATION	LABEL	ITEM NO
<b>CBD isolate from Swiss organic hemp cultivation</b> This CBD isolate fulfils the highest standards in terms of quality and purity. It has also been awarded the “Natruue” and “COSMOS approved” certifications, making it ideal for use in cosmetic products that are certified in accordance with NATRUE or COSMOS guidelines. The CBD is carefully produced from organically certified Swiss biomass in Switzerland.	> 99%*	+	Bio Suisse		A000560
<b>CBD isolate from conventional hemp cultivation EU</b> This CBD isolate is obtained from conventionally grown biomass in the EU. It is also “COSMOS approved” and therefore ideal for use in cosmetic products that are certified according to COSMOS guidelines.	> 98%*	–	–		A001311
<b>CBD isolate from conventional hemp cultivation EU</b> This CBD isolate comes from conventional biomass and is produced in the EU. It is intended for use in larger quantities and for price-sensitive customers. This product is designed as a simple standard product and is primarily aimed at customers with price-sensitive requirements. It is suitable for use in larger quantities. Please note our minimum order quantity (MOQ)	> 99%*	–	–	–	A000615

## CBG & CBN Isolates

<b>CBG isolate from Swiss organic hemp farming</b> This isolate meets the highest quality and purity standards. The CBG is made from Bio Suisse- and GACP-certified biomass in Switzerland. This GMP quality product is guaranteed to be free of any pesticides, heavy metals, microbiological contaminants, mycotoxins, and residual solvents. It is suitable for use in NATRUE-certified organic cosmetic products.	> 99%	+	Bio Suisse	–	A000730
<b>CBN isolate from European biomass</b> This CBN isolate comes from conventional biomass and is produced in the EU. This product is designed as a simple standard product and is primarily aimed at customers with price-sensitive requirements. Please note our minimum order quantity (MOQ)	> 98%	–	–	–	A000987

### Isolate with carrier oil? No problem

In addition to the pure isolate, we also offer the possibility of mixing it with a desired carrier oil to your individual concentration. You can choose from the following carrier oils:

- » Organic MCT Oil
- » Organic Sunflower Seed Oil
- » Organic Hemp Seed Oil
- » Other Oils on request

\*To promote transparency and trust, we provide detailed analyses that include all relevant information about our product: Cannabinoids, pesticides, heavy metals and solvent residues. Further analyses available on request (excluding A000615).

## Hemp Extracts And CBD In Cosmetics

### Great Effect With Increasing Demand

Cannabinoids are chemical compounds found in cannabis. The best known cannabinoids in the cannabis plant are the phytocannabinoid tetrahydrocannabinol (THC) and cannabidiol (CBD). In addition, there are more than 100 other cannabinoids. Hemp extracts and cannabinoids such as cannabidiol (CBD) are enjoying increasing popularity worldwide as ingredients in cosmetic products due to their diverse effects. The following effects are attributed to hemp extracts and cannabinoids (especially cannabidiol, CBD):

- » Anti-inflammatory
- » Antibacterial
- » Antioxidant
- » Pain relieving
- » Skin protection/nourishing
- » Anti-sebum

We offer a wide range of hemp extracts and cannabinoids as raw materials for cosmetic production.

#### INCI raw materials approved in cosmetics from the cannabis plant

Cosmetic ingredients have an international name, a so-called INCI term (International Nomenclature for Cosmetic Ingredients). Each ingredient is also listed in the Central European Register of Cosmetic Ingredients, COSING. The following INCI are listed without restriction of use (status: January 2022):

INCI	FUNCTIONS	CAS #
CANNABIS SATIVA SEED OIL	Skin conditioning, skin conditioning - emollient	89958-21-4
CANNABIS SATIVA LEAF EXTRACT	Skin conditioning, skin conditioning - emollient	n/a
CANNABIDIOL - DERIVED FROM EXTRACT OR TINCTURE OR RESIN OF CANNABIS	Anti-sebum, Antioxidant, Skin conditioning, skin protecting	13956-29-1
CANNABIGEROL (since March 2021)	Skin conditioning	25654-31-3
CANNABIDIOL - SYNTHETICALLY PRODUCED	Anti-sebum, antioxidant, skin conditioning, skin protecting	13956-29-1
CANNABIS SATIVA ROOT EXTRACT* (since August 2021)	Antimicrobial, Antioxidant	89958-21-4

#### THC in cosmetics

For the tetrahydrocannabinol content, THC, there are so far no legally binding guideline values for maximum quantities in cosmetics. Thus, the country-specific THC limit under narcotics law applies (0.2% in most EU countries, 1% in Switzerland).

reliable distribution  
with import & export

## Everything Under One Roof From Farming To Production To Distribution

### 25 years in organic farming

We've been growing hemp in our fields and greenhouse near Fribourg (Switzerland), using only the purest organic methods, for over 15 years. We harvest by hand and according to the strict Bio Suisse certification guidelines.

### Handpicked harvesting

During the annual harvest, the entire team rolls up their sleeves and joins in to ensure that the hemp plants are gently harvested from the fields. The plants are then neatly separated, dried, and prepared for extraction.

### Gentle CO<sub>2</sub> & THC extraction

Our extracts and cannabinoids are produced in-house, just a few steps away from our fields. The natural and environmentally friendly CO<sub>2</sub> extraction takes place without heat to avoid the destruction of valuable cannabinoids, terpenes and flavonoids. For the Broad Spectrum, we extract THC using flash chromatography.

### Independent quality assurance

Trust and transparency are our top priorities. We analyze each batch in our in-house laboratory while sending a sample to a certified, independent laboratory at the same time. All analyses are also available online.

### Everything under one roof

We even do the bottling in-house. This gives us full transparency and control over every production step.

### Worldwide distribution

Our end products are exported to our EU warehouse, from where they can be shipped directly to your doorstep – anywhere in the world.

## Sustainability & Responsibility

We are a sustainable company. This includes, among other things, operating socially and ecologically and taking personal responsibility for the environment. We produce two tons of CBD extract per year. The entire production is under one roof – from the seeds to the finished CBD product. The entire value chain is in our hands. This means that we travel minimal distances and thus reduce our ecological footprint.

### Short Distances Up To 20% Less CO<sub>2</sub>

By keeping our sourcing routes short and in the DACH region, we emit 15–20% less CO<sub>2</sub> into the air per kg of extract produced.

### Modern CO<sub>2</sub> Extraction 10x Less CO<sub>2</sub> Emission

Extracting natural substances with modern CO<sub>2</sub> extraction produces 10 times less CO<sub>2</sub> than an extraction based on ethanol (or other comparable alcohols based on petrochemical resources).

### Outdoor Cultivation 98% Less CO<sub>2</sub> Emissions

A value chain based on outdoor cultivation emits 98% less CO<sub>2</sub> into the air and uses 78% less water than a value chain based on indoor cultivation.
